Warranty

05/2024 EX

Validity

Technistone offers a **ten-year** warranty on material used in an interior. This warranty does not cover material used in commercial premises, for which there is a five-year warranty.

The **five-year** warranty covers slabs installed in areas accessible to the public, beginning with the date of installation.

The Technistone company offers a **two-year** warranty on floor tiles.

The warranty must be activated by registering your TechniStone® product on the company's website under the section "Warranty" (or scan the QR code below).

The warranty starts the day that the fabricated slabs are installed by a licensed fabricator in the interior living space. Registration must be completed within 30 days of said installation.

The seller is obligated to provide and abide by the warranty information presented to the customer throughout the warranty period, in accordance with these warranty terms.

10-year warranty

More about Warranty

Maintenance

Daily Use

For day-to-day maintenance, one of the following products can be used. These cleaning agents have a slight cleansing effect and serve primarily to degrease and remove common impurities on the kitchen counter. Always follow the manufacturer's recommendations and read the composition and use safety data sheets.

Special Products

For resilient stains (i.e. oil, rust, cement, adhesives), we recommend the following products in particular. These cleaners are mostly based on moderate acids and alkalis, therefore use caution when applying, minimize action time, dilute the product, and rinse thoroughly with water after application.

Before each use of the selected detergent, we recommend that you test it on a small area. Always follow the manufacturer's recommendations, read the composition and use safety data sheets. After using detergents, the surface of the product should always be thoroughly washed with clean water.

FOR INTENSIVE CLEANING
